# AC 547
# Mid-Term Exam Dataset Information

You are an auditor at the prestigious Hadley & Hope LLP (H&H) and are working on the audit of Prodigy Corporation for the fiscal year ended 12/31/2120. Prodigy is one of the five main corporations on Earth, and its Neverland Research Division operates research and support sites at **Neverland Island**, **Prodigy City**, and **Gateway Station**. After a deep-space research vessel, the USCSS Maginot, crashed in mid-2120, the division opened the **Maginot Recovery Site** and hired staff to support recovery operations.

The division's workforce includes:

- **Employees** – paid through payroll, either salaried (each paycheck is 1/26 of annual salary) or hourly (hours worked times the hourly rate, with 1.5 times the rate for hours over 80 in a pay period).
- **Contractors** – outside specialists who invoice Prodigy and are paid through accounts payable rather than through payroll.

Employees are paid every two weeks. There are 26 pay periods in FY2120. Each pay period runs Sunday through Saturday, and paychecks are issued on the Friday after the pay period ends. Pay period 1 runs 12/31/2119–1/13/2120 and is paid on 1/19/2120. Pay period 26 runs 12/15/2120–12/28/2120 and is paid on 1/3/2121. Note that pay amounts are in United American dollars which were redenominated in the 2110s to reverse a century of inflation in the "old" United States dollar.

You are assigned to the audit of payroll and your manager sends you three datasets.

1. **employee_roster** - Data obtained from Prodigy's human resources system. Includes every worker (employees and contractors) employed by the division at any point during FY2120. Each observation represents an individual worker (format .xlsx).

| *Variable* | *Description* |
|---|---|
| employee_id | Prodigy Corporation's unique identifier for each worker (e.g., PRD-10234) |
| last_name | Worker's last name |
| first_name | Worker's first name |
| department | Department the worker is assigned to |
| location | Primary work site |
| worker_type | "Employee" or "Contractor" |

| | |
|---|---|
| pay_type | “Salaried” or “Hourly” |
| pay_rate | Annual salary (salaried workers) or hourly rate (hourly workers), in dollars |
| hire_date | Date the worker was hired |
| termination_date | Date the worker left the company (blank if still employed) |

2. **payroll_register** - Data obtained from Prodigy’s payroll system. Includes every paycheck issued during FY2120. Each observation represents an individual paycheck (format .txt).

| *Variable* | *Description* |
|---|---|
| check_num | Paycheck number |
| pay_period | Pay period (1–26) the paycheck relates to |
| pay_date | Date the paycheck was issued |
| emp_id | Employee identifier of the worker who was paid |
| gross_pay | Gross pay before withholding |
| tax_withheld | Taxes withheld from the paycheck |
| net_pay | Net pay deposited to the worker (gross pay less taxes withheld) |

3. **timecards** - Data obtained from Prodigy’s timekeeping system. Includes the hours recorded by hourly employees in each FY2120 pay period. Each observation represents an individual hourly employee (format .csv).

| *Variable* | *Description* |
|---|---|
| employee_number | Numeric portion of the employee identifier |
| pp01–pp26 | Hours worked in each pay period (blank if no hours were recorded) |
